Gaillardia Portola Hybrids

Gaillardia

Portola Hybrids. This hardy perennial is of strong, vigorous, erect habit of growth, from 2½ to 3 ft. high; the stems are strong, and stiff, holding the flowers erect; these are of large size, nearly 4 inches in diameter, the petals being very broad and over-lapping, of great substance, and spread out flat, forming a very regular flower; in color a brilliant scarlet with coppery hue which is intensified by the golden yellow with which each petal is heavily tipped. Comes about 50% true from seed. Pkt. 10c.

Japanese Pinks

Nothing can equal these old fashioned garden pinks in display of gorgeous beauty and profusion of blooms. They are not particular as to soil and location, yet a fairly heavy and fertile soil produce large and stocky plants which is fairly loaded with flowers during late summer and fall. The flowers are large and double and embrace various shades, colors and markings such as flesh, pink, light and deep rose, scarlet, crimson and maroon. Pkt. 10c.

Japanese Pinks

Regal Lily

Lilies

With a well selected situation, lilies may be had in bloom from June to October. They can be planted in the fall, from October first as long as the soil can be worked, and in the spring till the first of May. Plant about five inches deep. Protect over winter with a good covering of leaves or straw.

The Regal Lily. (Regale or Myriophyllum.) A novelty of unusual merit. Experiments prove this new lily to be hardier than most kinds. The flowers are white slightly suffused with pink; with a beautiful glow of canary yellow at the center which continues part way up the trumpet. Its perfume is exquisite; not oppressively heavy like some types but the sweet fragrance of the jasmine. In the garden it should bloom early in July. It is admirably adapted for blooming in the house during winter. Do not fail to include this wonderful lily in your order. 30c each; 2 for 50c.

Tigrinum Splendens. An improved Tiger Lily growing sometimes 5 feet high and producing large pyramids of orange red flowers spotted with black. Each 20c.

Tigrinum Flora Pleno. A double variety of the beautiful Tiger Lily. Each, 20c.

Henryi. A rare and very beautiful lily. Each stalk carries 5 to 8 large flowers, apricot yellow, spotted brown. Hardy and easy to grow. 3 to 5 feet high. Blooms August and September. Each 50c.

Auratum. (Gold Banded Japanese Lily.) This is one of the finest hardy lilies. Flowers are ivory white, spotted with crimson and have a gold band down the center of each petal. Each, 35c.

Elegans. One of the most showy, hardy and satisfactory lilies. As brilliant as tulips. Shades of red and yellow. Each 20c.

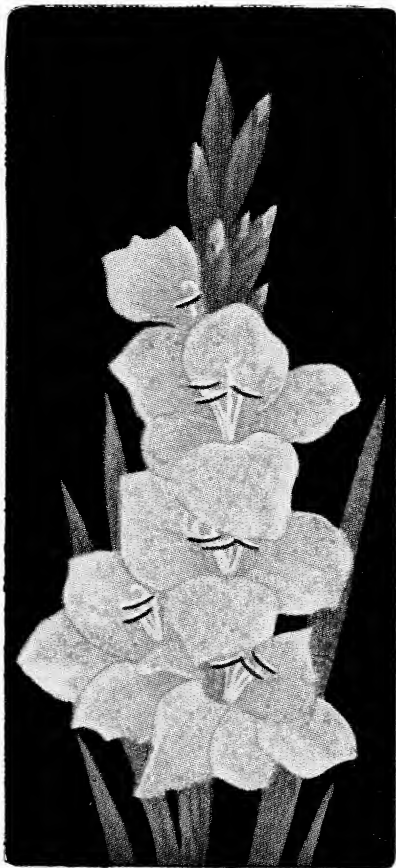

Speciosum Rubrum. This is one of the joys of August; ruby spots distributed over a broad expanse of white. Each, 30c.

Umbellatum. A very hardy and easily grown variety. Colors range from deepest red, crimson, rose to yellow. Each 25c.

Tigrinum Splendens

Glorious Gladioli

Miss Madison

Tyeko Zang. Clear salmon-pink, white throat, faintly dotted with deep cerise. Blooms well placed on a straight spike. A wonderful new variety.

Sidney Plummer. Beautiful soft yellow, suffused with delicate pink. Rich amber lip, amar-anth purple tongue. Blooms large and slightly ruffled.

Break O'Day. A delicate soft pink flushed over a cream ground and the shade is deeper at tips of petals. There is a zone of mar-tius yellowed on lower petals with delicate central lines of Brazil red.

Odin. You will like this beautiful variety. It has exceedingly large flowers of rich salmon with a dark blotch.

F. J. Symmes. A beautiful ruffled peach-red. The flowers have good substance and excellent arrangement. It is a variety you will be pleased to see.

J. Van Beyeren. One of the best violet purple shades, very massive spikes of large flowers.

Miss Madison. Dainty, clear light pink, no markings, very fine color.

Richard Diener. Pale geranium pink, flecked rose and blotched with yellow. Large spike, ruffled flowers.

J. A. Carbone. Immense flowers of orange-salmon, shading darker at the outer edge of petals.

Elizabeth Tabor. Rosy pink over white ground with dark crimson blotch.

Prices: 10c each; 3 of one variety, 25c; 10 of one variety, 60c; one bulb each of the 10 varieties: 75c, by mail, postpaid.

A.C.ANDERSON, COLUMBUS, NEBRASKA

Introductory

The pleasure of presenting our seed catalog to old and new friends once more devolves upon us. First, we wish to thank all for their kind appreciation and patronage, a continuance of which we will try to merit by careful attention to your orders. It shall be our earnest endeavor to make Platte Valley Peerless Seeds give satisfaction. Our seeds are grown with great care by men who know how to grow seeds; they will be found of the highest vitality, giving a high germination test, with which is coupled the highest grade of purity. If you have never tried our seeds you should do so this year, we are confident a fair trial will make you a permanent customer.

OUR GUARANTEE. We offer first-class seeds only and are ready to back them by the following guarantee: Any seed not entirely satisfactory may be returned and we will refund the money. Any that may fail to grow we will replace free of charge

without any argument about the matter. We cannot guarantee or be responsible for the crop, and in no case will we be responsible for any greater amount than the cost of the seeds.

HOW TO ORDER. Seeds, bulbs or plants are easily ordered by mail. Use our order sheet if you have one, write your name, post office, county and state first, then the quantities and varieties you want, carrying out the price and enclose the total amount in any convenient form of remittance and send it to us by mail.

HOW WE SHIP. Quantities of one pound and under are sent by mail, postage paid, at prices given in this catalog, unless otherwise noted. Larger quantities will be shipped by freight or express, purchasers paying charges.

HOW TO SEND MONEY. The most desirable way of remitting is by either Post Office Money Order, Bank Draft or Registered Letter. Do not send postage stamps when you can avoid it, as we cannot use them except for paying postage.

A. C. Anderson, Columbus, Nebr

Dear friends:

We here wish to express our sincere appreciation for the many kind letters of sympathy we received after you learned of the death of our dear father. They indeed, brought us closer to the work which he so loved and, the many friends he made during all the years in which he enjoyed their valued patronage.

Our first year without him is passed. It was a year of many uncertainties and, wondering if things were as he could have wished them but, you stood by us and so, we are here again: hoping that we may have the pleasure of serving you in the coming year. You will find some fine new varieties in our catalog which we trust will interest you as well as, many good standard varieties with which you are acquainted.

Thanking you sincerely,

The Family of A. C. Anderson

Never an Evergreen Bargain like this!

EVERGREEN COLLECTIONS

We take pleasure in presenting our list of Vegetable Seeds, being confident we can furnish a good seed as can be procured elsewhere. Prices include postage, unless otherwise specified.

Golden Butter Wax Beans

Burpee's Green Pod Stringless Beans

ASPARAGUS

COLUMBIAN MAMMOTH WHITE. Large white shoots, very tender, and o delicious flavor. A large number of the seeds will give white shoots and the green ones can be rejected when setting out the permanent bed. Pkt. 5c; oz. 10c; lb. 60c.

BEANS--Green Podded Bush

BURPEE'S GREEN POD STRINGLESS. An early green podded bean that produces edible pods in 42 days. The pods are absolutely stringless, so much so, that they break short and free like pipe stems. One of the best grown. Pkt. 5c; $\frac{1}{4}$ lb. 20c; lb. 50c.

GIANT STRINGLESS. This is a strong growing variety, with slightly curved pods, round and meaty. It is medium early, of excellent quality and has no superior for home or market. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

BEANS--Yellow Podded Bush

GOLDEN BUTTER WAX. This is the leader among wax beans, a rich succulent snap bean. It is very early and hardy, withstanding vigorous weather better than most varieties. A very prolific variety with pods of a rich golden color, tender, brittle and stringless. Pkt. 5c; $\frac{1}{4}$ lb. 15c; lb. 45c.

DAVIS WHITE WAX. A fine yellow podded bush bean, having clear white seeds. A sturdy rust-proof variety with long pods which are very tender. Unexcelled as a snap short, and fine as a shelled bean. Pkt. 5c; $\frac{1}{4}$ lb. 15c; lb. 45c.

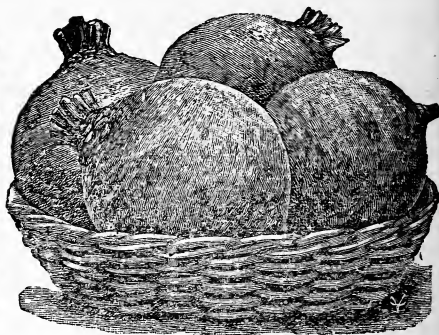

GOLDEN WAX. A vigorous variety with large tender pods of a beautiful waxy appearance, of delicious quality and free from strings. A great favorite for the home and market garden. Pkt. 5c; $\frac{1}{4}$ lb. 15c; lb. 45c.

PROLIFIC BLACK WAX. A very early and vigorous variety, with round meaty pods of a golden-yellow color. Unsurpassed in brittleness and flavor. Pkt. 5c; $\frac{1}{4}$ lb. 15c; lb. 45c.

ROUND POD KIDNEY WAX. A very early and attractive variety; of vigorous growth with heavy yielding vines; pods are long, round and entirely stringless; have a fine flavor and are edible to the very tips. Pkt. 5c; $\frac{1}{4}$ lb. 15c; lb. 45c.

Early Crimson Globe Beet

Detroit Dark Red Beet

BEANS--Bush Lima

HENDERSON'S BUSH LIMA. A wonderful cropper, producing more beans to a given area than any other lima bean we know of. It is early, hardy and free from disease. No one can fail with this excellent lima bean. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

BEANS--Pole or Running

KENTUCKY WONDER. An excellent green podded variety; enormously productive, the long pods hang in great clusters along the entire vine. The pods are very crisp and tender when young. Pkt. 5c; $\frac{1}{4}$ lb. 15c; lb. 45c.

GOLDEN CLUSTER WAX. Unsurpassed for richness, tenderness and plumpness of pods, which are a beautiful golden-yellow and entirely stringless. The seeds are pure white. Pkt. 5c; $\frac{1}{4}$ lb. 15c; lb. 45c.

BEETS--For Table Use

EXTRA EARLY EGYPTIAN. This is the earliest beet grown and is fine for market and home gardens. The roots are deep crimson; tops small, which admit of close planting. For forcing this variety is unexcelled. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

DETROIT DARK RED. Long experience has shown this variety to be one of the best deep red turnip beets, not only for market gardeners, but also for home use. It is also by far the best for canning, making a strikingly handsome product, much superior to that obtained of most other varieties. Its early maturity, and the splendid shape and color of the root make it popular every where. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

EARLY CRIMSON GLOBE. Very early, of spherical form. Skin very smooth and it is as handsome a beet as you can imagine. It is a deep rich red color shading to purple. Its flavor cannot be surpassed. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

LUCULUS OR SWISS CHARD. The leaves are used for greens and the stalks may be used like asparagus; they are very delicious. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

BEETS--For Stock Feeding

GIANT SLUDSTRUP. Of large growth, with flesh of reddish-yellow, very sweet and nutritious. Easy to harvest and is the best of all mangels for feeding purposes. Oz. 5c; $\frac{1}{4}$ lb. 20c; lb. 50c; 5 lbs. \$2.25.

BEETS--For Stock (Continued)

GIANT HALF SUGAR. Of great nutritive value on account of the high percentage of sugar, thus making it very desirable for feeding purposes. Oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 50c; 5 lbs. \$2.25.

MAMMOTH LONG RED. Of large size and enormous yielders. They are of good quality and are very much relished by stock. Oz. 5c; $\frac{1}{4}$ lb. 20c; lb. 50c; 5 lbs. \$2.25.

Borecole or Kale

GREEN CURLED SCOTCH. A finely curled low growing variety, the leaves of which when properly cooked make a very palatable dish of greens. The leaves are long and of an attractive green color. Pkt. 5c; oz. 15c.

All Head Early Cabbage

Brussel Sprouts

These resemble miniature cabbages, growing closely on the stalk of the plant from top to bottom. The sprouts are improved by freezing. Sow early in June, transplant into rows two feet apart, eighteen inches apart in the row. Pkt. 5c; oz. 20c.

CABBAGE

COPENHAGEN EARLY MARKET. The earliest and most compact of the round-headed sorts. It is of the best quality and is a money maker for the market gardener as well as desirable for the home garden. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

EARLY JERSEY WAKEFIELD. An exceptionally early variety. This is the best of the pointed or conical head varieties; it is very hardy and compact. Most gardeners depend upon it for the bulk of their extra early crop. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

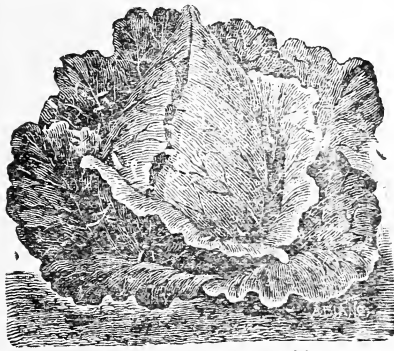

ALL HEAD EARLY. One of the largest of the early cabbages, always sure to produce uniform and solid heads. The heads are deep, flat top, solid as a rock and entirely free from loose spreading leaves. On account of its compactness more heads can be grown to the acre than any other early summer variety. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

DANISH BALLHEAD. This is remarkable for its handsome appearance, great solidity and is particularly desirable for shipping. It is vigorous, compact and exceedingly hardy. The head is medium sized, round and solid. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

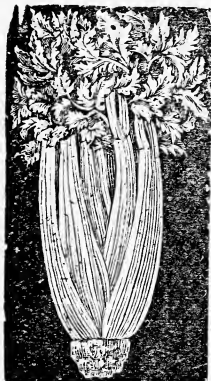

MAMMOTH LATE FLAT DUTCH. —The heads are large, sound, very solid, broad and flat on top, and of a beautiful bluish-green color with but few outside leaves. One of the very best to keep, are crisp, tender and well flavored. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

SUREHEAD. Large, solid and deep. Is fine grained and keeps well for winter use. It is sure to head. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

Order your seeds early.

Early Jersey wakefield Cabbage

White Plume Celery

Early Snowball Cauliflower

CARROTS

CHANTENAY. A fine early variety for bunching. Has very handsome roots and is a great yielder. A splendid variety for market. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00

OXHEART. This is an early short thick carrot, admirably adapted for bunching while small. Flesh bright orange, fine grained and sweet. Excellent for the table, and unsurpassed for feeding stock. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

DANVER'S HALF LONG. Grown on account of great productiveness and adaptability to all classes of soil. A desirable second early carrot for the home garden and is also suitable for field culture. The roots are of medium length, six to eight inches long. The flesh is deep orange, tender and of fine quality. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb 35c; lb. \$1.00.

Cauliflower

EXTRA EARLY SNOWBALL. This is very early, and one of the surest to make fine, large, solid heads. Valuable for late planting as well as early. The standard among early cauliflowers and a favorite with market gardeners. Pkt. 10c; $\frac{1}{4}$ oz. 60c.

CELERY

GOLDEN SELF BLANCHING. Of dwarf compact habit, with thick, solid, heavily ribbed stalks, which blanch easily to a clear golden color. Crisp and stringless. A standard early variety. Pkt. 5c; oz. 25c; $\frac{1}{4}$ lb. 90c.

WHITE PLUME. This is a natural self-blanching variety, the inner leaves and stalks being white, it only requires the earth to be slightly drawn about it to be bleached to perfection. Pkt. 5c; oz. 25c; $\frac{1}{4}$ lb. 90c.

CELERIAC OR TURNIP-ROOTED CELERY. This produces a turnip shaped root, which may be cooked and sliced and used with vinegar, making a most excellent salad. Cultivate the same as celery. Pkt. 5c; oz. 25c.

SWEET CORN

GOLDEN BANTAM. Of all varieties this is one of the most delicious, and is conceded to be the richest in flavor. Is extremely early, of hardy vigorous growth so that it can be planted quite early. In flavor it is quite distinct from the white sorts and sweet as honey. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

EARLY WHITE EVERGREEN. The finest of all mid-season varieties for home garden or canning. Good large ears, usually 16 or more rows to an ear. Flavor is remarkably sweet. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

STOWELL'S EVERGREEN. The standard late variety. It is hardy and productive, very tender and sugary, remaining a long time in a fresh condition, suitable for boiling. This will outsell the common varieties two to one. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

COUNTRY GENTLEMAN. An unexcelled late variety, densely covered with irregular rows of very long and slender white grains. It is one of the richest flavored of all the late varieties. The most luscious of all varieties of sweet corn. Ears are seven to nine inches long. Well adapted for canning as well as the home garden and market. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

POP CORN

It pays to raise pop corn as a general crop. The demand usually exceeds the supply. Some farmers claim it is as easily grown as field corn and they receive three or four times the amount per acre for crop. Let the children try a patch.

AUSTRALIAN HULLESS. Dwarf growing and a heavy yielder. Most tender and delicious flavor when popped, without any hard particles. Oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 50c.

CRESS

EXTRA CURLED. Extensively used as a small salad the leaves while young have a warm pungent taste. Sow rather thick in shallow drills, at intervals. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

CUCUMBER

KIRBY'S STAYS GREEN. Stays Green is the earliest of the White Spine type; fruit seven to eight inches long, cylindrical in shape. Color a beautiful dark green from stem to blossom end, which is retained longer than any variety we know of. Vigorous grower, enormous yielder. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

DAVIS' PERFECT. This variety beats all others in points of beauty, quality and productiveness. It is one of the best varieties for forcing as well as for the open ground. It is excellent for pickles and no sort is more appreciated for slicing. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

CHICAGO PICKLE. Medium in size, dark green in color when young, matures early and produces an immense number of fine shaped pickles. This is considered the best all-around variety for pickles. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

LONG GREEN. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sort; fruits about 12 inches long, firm and crisp. One of the best of any for sweet pickles. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

EGG PLANT

NEW YORK PURPLE. Plants large, vigorous with light green leaves; fruit very oval, deep purple; flesh white, tender and of superior quality. This is considered the best for home use and market. Pkt. 5c; oz. 40c; $\frac{1}{4}$ lb. \$1.50.

KOHL RABI

A vegetable intermediate between the turnip and cabbage, combining the flavor of both. The bulb-shaped growth is used when very small and tender.

WHITE VIENNA. Early, forming a small, handsome white bulb. Pkt. 5c; oz. 15c.

Endive

GREEN CURLED. Finely curled dark green leaves which blanch white and are tender and crisp by tying over the outer leaves. Not only useful as a salad, but much used for garnishing. As it is used mostly in the fall and winter months, they should be sown in June and July. Plant one foot apart each way. Pkt. 5c; oz. 15c.

LEEK

BROAD LONDON FLAG. Large, with broad leaves growing on two sides like the flag. The stem is large, and of fine flavor. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c.

LETTUCE

IMPROVED HANSON. The best out-door lettuce, has very little tendency to run to seed. The plant forms a large flat head, very solid, resembling a head of cabbage. It is light in color, crisp, tender and sweet. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.40.

BLACK SEEDED SIMPSON. A quick growing, hardy variety, which can be used early. It is very tender and sweet while young. Color, clear light green with leaves very much crimped. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.40.

PRIZE HEAD. The edges of the outer leaves are of a glossy reddish bronze; the center is almost white, very crisp and tender. It grows very quickly, is ready to cut early, and lasts for weeks. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.40.

HENDERSON'S NEW YORK. The interior is beautifully blanched, creamy-white, crisp, tender and delicious, being absolutely free from any trace of bitterness. It is a very large, robust growing variety rooting deeply, resisting hot, dry weather, very slow to run to seed and a sure header under the most trying conditions. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.25.

MUSK MELON

EDWARD'S PERFECTO. Fruit uniform in size, nearly round, and densely covered with hard gray netting. Flesh very thick with a delightful salmon-color shading into green as it nears the rind. One of the sweetest and best musk melons grown. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

HONEY DEW MELON. This popular variety is of good size, has a very small seed cavity, is unsurpassed in flavor and as sweet as honey. It is a great yielder, a wonderful keeper and a splendid shipper. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.50.

GOLDEN LINED ROCKY FORD. This attractive melon is of ideal shape, very slightly oval, no ribs, and it is heavily netted over the entire melon. It is thick meated, fine grained and sweet; color green with a gold margin next to the seed cavity. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

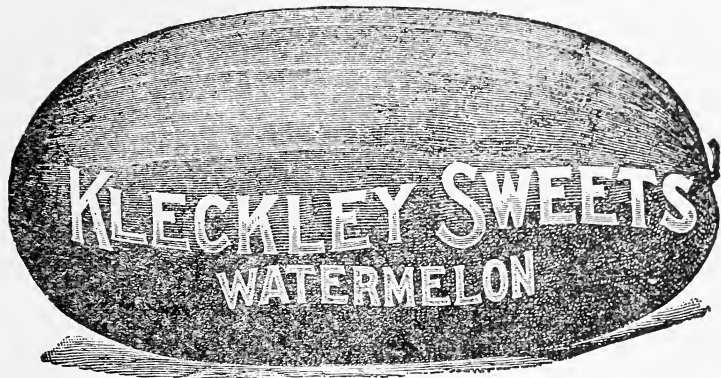

BURRELL'S GEM. Very much like the Rocky Ford, but has orange colored flesh. The flesh is finely grained and spicy. It is a good keeper. Fruits large and somewhat elongated. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

WATERMELON

COLE'S EXTRA EARLY. Decidedly the earliest and finest variety for home planting. Skin mottled dark and light green; flesh dark red, of granulated sparkling appearance, very sweet. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

FORDHOOK EARLY. This is the earliest fruited melon in cultivation. The flesh is bright red, crisp, sweet and of splendid quality. Rind quite thin, but tough, making an excellent shipping variety. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

KLECKLEY SWEETS. Oblong in form, with dark green skin. Flesh bright scarlet, with solid heart, deliciously crisp, sugary and splendid in every way. It is of large size, ripens early, and is most desirable. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

TOM WATSON. A large, oblong melon with deep red flesh, crisp melting, and of the finest flavor. An excellent shipper, and this feature added to its fine quality and handsome appearance makes it valuable. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

IRISH GRAY. This melon is equally good for shipping as for home use. The flesh is red, sweet, crisp and free from stringiness. The thin but tough rind is mottled greenish gray, entirely distinct. Vines are very vigorous, healthy and produce fine melons through a long season. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

ONION

MAMMOTH PRIZE TAKER. Like nearly all Spanish onions, this makes extra large size onions and of particular fine flavor. The outside skin is a rich yellow straw color, and the flesh is pure white; sweet, mild and tender. Ripens up fine and hard, and makes a very handsome and attractive onion. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

LARGE RED WETHERSFIELD. With proper soil and culture this will quickly grow to marketable size from seed. The skin is deep purplish red; flesh white, sometimes slightly tinged pink; mild and sweet. It is the best known red onion, and equally desirable for the home of market gardener. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 50c.

YELLOW GLOBE DANVERS. This is a popular yellow onion, growing to a large size, a good keeper, and of pleasant flavor. Our stock is exceedingly fine, and will compare favorably with any strain offered. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c.

Yellow Globe Danvers Onion

PARSLEY

CHAMPION MOSS CURLED. A compact growing, finely cut and much curled variety, of a bright green color. Owing to its fine color and density of foliage it is much sought after for both the market and the home garden. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 90c.

PARSNIP

FINE SUGAR. Long white, smooth, and considered by all to be the best flavored parsnip grown. A favorite market variety. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 90c.

PEPPER

CAYENNE. This is the real hot kind; grows 3 to 4 inches long and is very prolific, often a hundred or more to a single bunch. Pkt. 5c; oz. 35c.

PIMENTO. This new pepper is very mild with thick heavy flesh and has a delicate flavor. The shape is very good, being of medium length and smooth. It presents an attractive appearance when filled for the table. It is also delicious when used in salads or creamed like onions. Very prolific and a good shipper. Pkt. 5c; oz. 35c.

RUBY KING. The most popular large red pepper. Plants grow 2 feet high and bear a fine crop of handsome, extra large, scarlet fruits. Flesh is thick, sweet and mild. Fine for mangoes. Pkt. 5c; oz. 35c.

PEANUTS

MAMMOTH VIRGINIA. The largest, sweetest and heaviest yielding variety, and is more desirable than the common spreading kind because more easily cultivated. Every boy and girl can grow their own peanuts almost anywhere in this country. Plant about corn planting time in deep mellow soil and cultivate thoroughly throughout the season. $\frac{1}{4}$ lb. 15c; lb. 40c.

WONDER
Collection
No. 5

50 Gladioli 50c.

Bulbs all sizes, all colors. A magnificent collection.

PEAS

ALASKA. This is an extremely hardy early variety, that can, on this account, be planted earlier than any other sort. It is grown much by market gardeners and canners on account of its earliness and uniformity of crop. It has strong healthy vines 15 inches high, which need no support. Seed round, bluish-green, slightly pitted. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

NOTT'S EXCELSIOR. This grows 15 inches high, and is one of the best wrinkled varieties in cultivation. It is ready for use in about 48 days from planting. The peas are tender and of a most delicious flavor. The pods are large, numerous and well filled. The most popular dwarf pea grown. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

GRADUS OR PROSPERITY. This remarkable wrinkled pea is not only large and of the best quality, but it is also nearly as early as the small, round, extra early sorts. The vine grows to a height of about 30 inches. The pods are of a light green color and measure 4 inches or more in length. The peas are of first-class table quality and retain their attractive appearance after cooking. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

EVERBEARING. A prolific wrinkled variety, growing 18 to 24 inches high, and bearing in great profusion large pods. It is very popular for the family garden. The peas are large and wrinkled, cook very quickly, are tender, of superior flavor and preferred by many to any other sort. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

DWARF MELTING SUGAR. This variety has edible pods. This belongs to a class of peas not generally known in this country but much used abroad, in which the sweet, brittle and succulent pods have none of the tough inner lining found in the ordinary varieties of garden peas. They are used in the same way as snap or string beans. The perfect sugar pea. If you have never tried this pea you should include it in your order for seeds. Pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 35c.

PUMPKIN

CONNECTICUT FIELD. Generally used for planting in corn for stock feeding also for making pies; fruit rather oblong, flattened at the ends, often 15 inches in diameter; smooth, hard, reddish-orange, distinctly ribbed skin with rich, orange-yellow flesh. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 75c.

CUSHAW OR CROOKNECK. A French variety which is fine for pies. Has a hard white or striped shell and sweet, solid yellow flesh. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.10.

TENNESSEE SWEET POTATO. A magnificent pear shaped variety of fine size, a little ribbed; color creamy white. Has no superior for making pies and custards. Flesh thick creamy white, remarkably fine grained, dry and brittle, hardy and productive and keeps well. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.10.

RADISH

SPARKLER. We consider this one of the most desirable radishes to grow. Color deep scarlet with a distinct white tip covering at least one-third of the lower diameter of the root. It matures under favorable conditions in about twenty-five days and will hold longer than the other turnip or globe shaped radishes before becoming pithy. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

CRIMSON GIANT GLOBE. This new radish is an entirely new type and differs radically from all the varieties hitherto in cultivation insofar that its roots attain more than double the size of those of other forcing varieties without getting pithy or hollow. This giant radish develops roots 6 to 8 inches in circumference and over an ounce in weight, their pure white flesh remaining firm and crisp, and of mildest flavor. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

CHAMPION. This is the best and earliest round or turnip-shaped radish for forcing or open ground. It grows as round as a ball, with very short leaves and is of a deep scarlet color. It grows with great rapidity, often getting large enough to pull in 18 days from sowing the seed. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

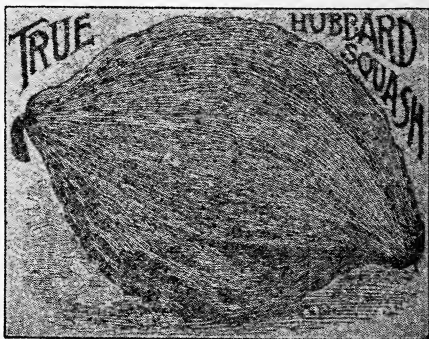

Radish continued on next page.

RADISH Continued from
page 9

ICICLE. A very fine white variety and the earliest of the long snowy white sorts yet produced. It has but small tops, making it very desirable for forcing. The roots continue brittle, mild and crisp, until full grown. They have a peculiar and delicious freshness not to be found in the other sorts. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

JAPANESE GIANT. This giant radish grows to enormous dimensions. Roots frequently grow 14 to 18 inches in length and 6 to 8 inches in diameter. The skin is pure white, flesh firm and solid, mild as an apple and superior to the most delicate spring radishes; thrives in any soil or location. Pkt. 5c; oz. 15c.

CHINESE ROSE WINTER. This is an extensively grown variety for fall and winter use. It is also known as Scarlet China. The roots are cylindrical, or largest near the bottom, stump rooted or blunt at both ends. The skin is smooth and of a bright deep rose color. The flesh is white, firm, crisp and pungent. The tops are moderately large with leaves distinctly cut and divided leaf-stems tinted rose. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

**SALSIFY--Vegetable Oyster**

MAMMOTH SANDWICH ISLAND. An extra large variety, growing much larger than the old variety. The roots, notwithstanding their large size, are of a very superior quality and delicate flavor. This variety, where known is entirely superceding the old type, as it produces roots nearly double the size and weight. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 75c

SQUASH

BURPEE'S FORDHOOK. The vines are of strong vigorous growth and wonderfully productive. Fruit oblong in form, eight to ten inches in length, slightly ridged, smooth thin yellowish skin; flesh very thick and of a light straw-yellow. If gathered young for cooking no other squash approaches it in flavor, while if allowed to ripen on the vine they can be stored and will keep in excellent condition until late the following June. Either for baking like sweet potatoes or making pies during the winter the quality is unsurpassed. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

DELICIOUS. This is the finest flavored squash we know of. It is so dry and fine grained that it resembles a good sweet potato more than ordinary squash. The fruit is not as large as Hubbard, but it is very heavy, and is of far better quality than that variety, being dryer, richer and sweeter. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

HUBBARD. This is an old favorite, and is the standard winter squash; grown perhaps more generally than any other variety. Flesh bright orange-yellow, fine grained, very dry and sweet flavored. Boils or bakes exceedingly dry, and is esteemed by many to be as good baked as the sweet potato. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

TABLE QUEEN. A unique and very desirable little squash, about the size of quart cup. It is unsurpassed for cooking, and exceptionally fine for baking. Cooks dry and mealy and is of a rich butter flavor. It is cone shaped, blue-black in color and a marvelous keeper. It is a wonderful squash for pies, much superior to pumpkins. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c.

WONDER
Collection
No. 6

5 Fine Geraniums, 50c.

SPINACH

KING OF DENMARK. A new Spinach and a very valuable introduction. The plants are ready for use as soon as the early kinds and remain so in good condition two weeks after other varieties have gone to seed. The plants grow rapidly, resembling the Long Season in type but leaves are more crumpled and are darker green in color, thick, of good quality and stand well after cutting. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

LONG SEASON. This variety stands longer without running to seed than any other kind. The leaves are very thick and dark green—much deeper in color than other kinds. The plants resemble the Savoy Leaf in appearance, but are darker green, and stand much longer. This is a very fine variety and we highly recommend it for both market and home garden. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 80c.

NEW ZEALAND. Produces an abundance of leaves on stems a foot or more in length. Will grow during hot dry weather when other spinach would be useless, continuing to furnish nice "greens" all summer and fall. The leaves and stems are tender and of excellent flavor. Soak seed in warm water 12 hours before sowing, as it is difficult to get it to germinate. Sow the seed in May, in rows two feet apart. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

Mammoth Russian Sunflower

This is the mammoth sunflower so much prized by poultry keepers. It is the best egg producing food known, poultry will eat it greedily, it keeps them in fine condition and they fatten well on it. It is a splendid food for all farm animals, being relished by horses, cattle, sheep and swine. Plant from the first of May to the first of June $\frac{1}{4}$ lb. 10c; lb. 25c.

TOMATO

BONNY BEST. An extra fine early variety for the home garden; a few days later than the Earliana. The color is bright red; ripens evenly to stem. It is a vigorous grower, quite productive and has splendid foliage for protecting fruit from the hot sun. Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. 90c.

JUNE PINK. The earliest of all pink tomatoes. It is a good yielder, of high quality and runs very smooth for an early sort. The June Pink while primarily an early tomato continues to bear and ripen fruit up to frost. Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. 90c;

JOHN BAER. One of the best of the early tomatoes. Very prolific, one plant often having 50 or more fruits which ripen evenly clear to the stem and never burst. Bright red and free from core. Fine for early home and market use. Pkt. 5c; oz. 25c; $\frac{1}{4}$ lb. 80c.

DWARF CHAMPION. This is the best of the so-called tree tomatoes. It is very popular on account of its stiff, upright and vigorous growth which keeps the fruit well above the soil without any support whatever. The color of the fruit is a rich purplish pink, of medium size, smooth and symmetrical. It is unsurpassed in quality, very productive and valuable for the home or market. Pkt. 5c; oz. 25c; $\frac{1}{4}$ lb. 80c;

PONDEROSA. A gigantic variety, the tomatoes often weighing two or three pounds each. Of a rich, bright crimson color and all solid meat, exceptionally free from seeds. Extremely delicious in flavor whether used raw or cooked. A single tomato is enough for a meal. Very desirable for family and market purposes. Produces fruits continuously until frost. Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. \$1.00.

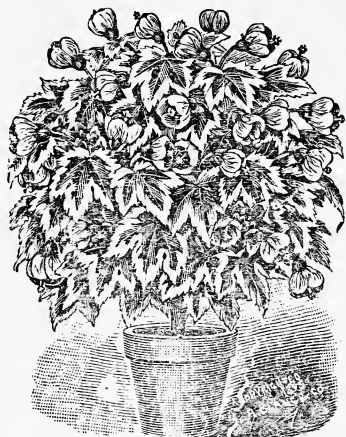

TURNIP

EARLY PURPLE TOP MILAN. The earliest in cultivation. The bulb is round, of medium size, quite smooth, with a bright purple top; leaves short, and light of color, growing very compact and making an exceedingly small neat top. The pure white flesh is of the choicest quality, hard, solid, and fine grained. It is an excellent keeper. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Choice Flower Seeds

Our Flower Seeds are fresh and of the best possible quality. We think we can please you in flower seeds, since we have spared no pains to secure the very best. Seeds and bulbs may be ordered together.

EXPLANATION of ABBREVIATIONS: Ha. hardy annual; 7 a. tender annual; Hp. hardy perennial; Hhp. half hardy perennial; Tp. tender perennial; Hb. hardy biennial.

Abutilon

ABRONIA. A charming succulent plant with rose-colored fragrant flowers. Fine for rock work. Ha. Pkt. 5c.

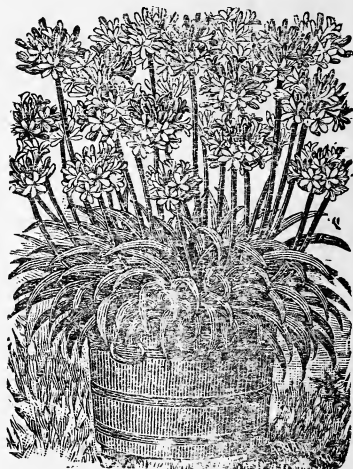

ABRUS. The curious weather plant, bearing clusters of beautiful yellow flowers. Tp. Pkt. 5c.

ABUTILON. The beautiful flowering maple; large bell-shaped flowers. Tp. Pkt. 10c.

ACACIA. Elegant shrubs with elegant leaves and racemes of yellow flowers. Tp. Pkt. 5c.

ACANTHUS. Stately plants with deeply cut leaves and rose colored flowers. Fine for specimens. Hp. Pkt. 5c.

ACONITUM. Has curiously formed flowers of various colors. Grows about three feet high. Hp. Pkt. 5c.

Agapanthus

ARCOLINIUM. An everlasting with lovely white and pink flowers, much used for winter bouquets. Ha. Pkt. 5c.

ADLUMIA. A graceful climber with feathery foliage and beautiful flesh-colored flowers. Hp. Pkt. 5c.

AGAPANTHUS. The blue African Lily; is fine for tubs and bears large umbels of blue flowers. Tp. Pkt. 10c.

AGERATUM. A fine bedding plant with beautiful blue and white flowers that look like silken floss. Mixed colors. Ha. Pkt. 5c.

AGROSTEMMA. Glowing crimson flowers and silvery foliage. Fine for cutting. Hp. Pkt. 5c.

Anemone St. Briged

ALONSOA. Bright scarlet flowers, very attractive and suitable for bedding. Ha. Pkt. 5c.

ALYSSUM. Little Gem. White flowers, fine for borders. Ha. Pkt. 5c.

AMARANTHUS. Stately foliage plants. Ha.

Sunrise. Foliage banded with bronze scarlet and yellow. New and beautiful. A charming plant for the garden Pkt. 5c.

Tricolor. Gorgeous foliage that can be clipped if desired. Pkt. 5c.

AMBROSIA. A fragrant flower for bouquets; yellow buds and blossoms. Very desirable. Ha. Pkt. 5c.

AMMOBIUM. An easily grown white everlasting, very fine for winter bouquets. Ha. Pkt. 5c.

ANCHUSA. Capensis. Fine blue flowers resembling large Forget-me-nots. Fine for cut flowers. Ha. Pkt. 5c.

Italica Dropmore. A sturdy grower with gentian blue flowers. Unique and pretty. Hp. Pkt. 5c.

ANAGALLIS. Lovely dwarf annuals, exceedingly effective as edgings, also charming on rock work and in pots. Ha. Pkt. 5c.

ANEMONE. St. Briged. A grand selection of gorgeous flowers in many colors. Excellent for bouquets. A fine plant for the herbaceous border. Hp. Pkt. 5c.

ANTIGONON. Leptopus. The handsome Mexican Mountain Rose. A beautiful

climber with rose-pink flowers. Tp. Pkt. 5c.

ANTIRRHINUM. The popular Snapdragon, very easily grown and beautiful. Tp.

Canary Bird. A rich yellow. Pkt. 5c.

Rose. A beautiful rose-pink. Pkt. 5c.

Ruby. Brilliant red, very fine. Pkt. 5c.

Snowflake. Very large white. Pkt. 5c.

Mixed. All colors. Pkt. 5c.

Ambrosia

**Arctotis Grandis**

AQUILEGIA. The beautiful Columbine with graceful spurred flowers. Hp. **Coerulea.** This is the charming Rocky Mountain Columbine. Sepals deep blue, petals white. Pkt. 10c.

Chrysantha. Long spurred double and single flowers, yellow and white mixed. Pkt. 10c.

Superior Mixed. The finest varieties. Pkt. 5c.

ANTHEMIS. Kelwayi. A lovely hardy plant, with golden yellow flowers that are excellent for cutting. Hp. Pkt. 5c.

ARABIS. Early spring flowers that appear as soon as the snow is gone. Useful for edging; white flowers. Hp. Pkt. 5c.

ARGEMONE. Lovely flowers and beautiful foliage. Snowy white with yellow stamens. Ha. Pkt. 5c.

ARISTOLOCHIA. Siphoc. A very interesting climber with peculiarly shaped flowers, resembling the shape of a Dutchman's Pipe. Tp. Pkt. 5c.

ARCTOTIS GRANDIS. Large daisy-like plants on long stems, pure white on the upper surface, reverse of petals lilac. Ha. Pkt. 5c.

ARMERIA. Fine for borders and edgings. Has pretty rose colored flowers. Hp. Pkt. 5c.

ARTEMESIA. Sacrorum Viridis. Fine for specimens, resembles a finely developed evergreen. Ha. 5c.

ASCLEPIAS. Tuberosa. Produces umbels of brilliant orange flowers. Hp. Pkt. 10c.

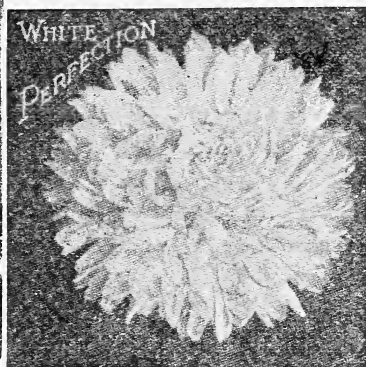

ASPARAGUS. Plumosus. Bright green sprays of lacy texture. Tp. Pkt. 10c.

Sprengeri. A very elegant foliage plant for baskets. Tp. Pkt. 10c.

Verticillatus. Blooms very freely and has an abundance of red berries late in summer. A desirable climber, perfectly hardy. Fine for bouquets. Hp. Pkt. 10c.

ASPERULA. Azurea Setosa. Desirable for beds and borders; sweet-scented pale blue flowers. Ha. Pkt. 5c.

Hexaphylla. Has a delicate misty white spray; fine in bouquets. Hp. Pkt. 5c.

ASTERS. Giant Late Branching. Very large flowers and considered the most valuable for cutting. White, Crimson, Purple, Lavender, Pink and Mixed. Price each per Pkt. 5c; $\frac{1}{4}$ oz. 30c.

Queen of the Market. The best early Aster, providing good sized flowers in great abundance. White, Crimson, Purple, Lavender, Pink and Mixed, Price each per Pkt. 5c; $\frac{1}{4}$ oz. 30c.

Giant Crego. Flowers of immense size, with twisted and curled petals and long stems. Mixed colors. Pkt. 5c; $\frac{1}{4}$ oz. 35c.

Heart of France. Ruby red, deepening with age, a rich and attractive color. Pkt. 5c; $\frac{1}{4}$ oz. 30c.

American Beauty. Very large double flowers on strong stems. Very desirable for cut flowers. Mixed colors. Pkt. 5c; $\frac{1}{4}$ oz. 40c.

Giant Comet. A prolific variety with very large flowers composed of long wavy petals. Mixed colors. Pkt. 5c; $\frac{1}{4}$ oz. 35c.

Peerless Pink. Large flowers of a rich shell pink. Pkt. 5c; $\frac{1}{4}$ oz. 40c.

Golden Sun. The best of the yellow varieties, flowers large and full. Pkt. 5c.

White Perfection. A fine mid-season variety, carrying large double white flowers on long stems. A fine aster. Pkt. 5c.

AURICULA. Beautiful low growing early spring flowering plants; fine for pot culture. Produces an abundance of brilliant fragrant blossoms of many colors. Hhp. Pkt. 5c.

BALLOON VINE. A free growing vine with delicate clusters of bloom and inflated seed pods resembling miniature balloons. Ha. Pkt. 5c.

BALSAM. Camellia. This is the finest strain of Balsam ever brought out. Many colors mixed. Ha. 1 t. 5c.

BALSAM APPLE. A quick growing climber with curious yellow fruits, which when ripe opens and shows a red interior. Ha. Pkt. 5c.

BAPTISSIA. This has pretty racemes of pea-shaped bright blue flowers appearing in midsummer. Hp. Pkt. 5c.

BARTONIA. Thistle-like foliage and showy golden-yellow flowers. Sow early in May where it is to bloom. Excellent both for beds and borders. Ha. Pkt. 5c.

BEAN. Scarlet Runner. A beautiful climber with large sprays of bright scarlet pea-like flowers. The beans cook like lima beans. Ha. Pkt. 5c.

BELLIS OR DOUBLE DAISY. Fine for edgings, borders and low beds, also well suited for growing in pots. Hhp. Mixed colors. Pkt. 5c.

BOCCONIA. The lovely plume poppy, fine for specimens. Pretty cream-colored flowers. Hp. Pkt. 5c.

BOLTONIA. Useful for cutting, has white and pink flowers. Hp. Pkt. 5c.

BRACHYCOME. The charming Swan River Daisy, producing a profusion of pretty white and blue flowers. Good for beds and pots. Ha. Pkt. 5c.

BROWALLIA. Beautiful winged flowers of intense blue, very uncommon; grows freely in any rich soil. Ha. Pkt. 5c.

BRYONOPSIS. An ornamental climber of the gourd family, bearing green fruit which changes in color to bright scarlet striped white. Ha. Pkt. 5c.

BUDDLIA. A fine shrub with tapering spikes lilac-mauve flowers. Protect same as roses. Hhp. Pkt. 5c.

CACALIA. Orange-scarlet flowers resembling a small paint brush. Fine for bouquets. Ha. Pkt. 5c.

CALANDRINA. Grandiflora. Has fleshy leaves and bright rose-colored flowers, especially suitable for sunny situations. Ha. Pkt. 5c.

Umbellata. A fine trailer with brilliant crimson flowers. Excellent for rock work and sunny situations. Hp. Pkt. 5c.

Cineraria

CALCEOLARIA. A beautiful plant for pot culture, bears a profusion of singular pocket-shaped flowers, many of which are tigered or spotted. Tp. Pkt. 10c.

CALENDULIA. This forms dwarf bushy plants, and is literally covered with large double flowers in various shades of yellow. Ha. Pkt. 5c.

CALLIOPSIS. Showy flowers of various colors borne on slender stems. Mixed colors. Ha. Pkt. 5c.

CAMPANULA. Favorite plants with attractive bell-shaped flowers. Hp.

Persicifolia Grandiflora. Fine for both garden and pot culture. Double white and blue. Pkt. 5c.

Pyramidalis. Blue and white salver shaped flowers. Pkt. 5c.

CANARY BIRD FLOWER. A dainty and pretty climber with canary colored flowers, resembling a bird with its wings expanded. Grows rapidly and affords a dense shade. Ha. Pkt. 5c.

CANDYTUFT. Free blooming and fine for bedding. Ha.

Snow Crest. A most prolific white variety. Pkt. 5c.

Dark Crimson. Rich crimson flowers. Pkt. 5c.

Rose Pink. A deep rose color. Pkt. 5c.

CANNA. Our seed is from the best dwarf hybrids, which produces large flowers and beautiful foliage. Tp. Pkt. 5c.

CANTERBURY BELLS. Very desirable plants for the flower garden. Hp.

Calycanthema. Various colored flowers, cup and saucer shape. Pkt. 5c.

Fine Mixed. Double and single varieties. Pkt. 5c.

CARDINAL CLIMBER. A rapid climber with fern-like foliage and dazzling scarlet flowers. Ha. Pkt. 5c.

CARNATION. Favorite fragrant flowers. Hhp.

Chabaud. Double flowers, early and free blooming. Pkt. 5c.

Margaret. Large flowering variety with beautiful double flowers. Pkt. 5c.

CATANANCHE. Very desirable for cut flowers, has large blue and white flowers. Hp. Pkt. 5c.

CELOSIA. This is the beautiful Cockscomb, curious and attractive. Ha.

Cristata Nana. Fine dwarf varieties. Pkt. 5c.

Chinese Wool Flower. Pretty round, globular flowers, appears like balls of bright red wool. Pkt. 5c.

CENTAUREA. Lovely flowers, desirable for cut flowers. Ha.

Imperialis. Artistic shaped, fragrant flowers; fine for bouquets. Pkt. 5c.

Cyanus. The popular Bachelor's Button or Cornflower. It is very valuable for cut flowers. Pkt. 5c.

CENTROSEMA. A charming hardy climber rivalling the Clematis. Lovely pea-shaped flowers of lilac-blue with white eye. Hp. Pkt. 10c.

CERASTIUM. Silvery white foliage, covered with snow-white flowers in early summer. Hp. 5c.

CHRYSANTHEMUM. A sturdy plant with beautiful flowers of various colors. We offer a mixture of the best colors. Ha. Pkt. 5c.

CINERARIA. Lovely plants for house culture. The colors of the flowers are exceedingly rich and beautiful. Tp. Pkt. 10c.

CLEMATIS. Recta. This produces fragrant, pure white flowers in long racemes. Hp. Pkt. 5c.

CLARKIA. A very pretty flower, desirable for bouquets, lasting a long time. Ha. Pkt. 5c.

COBAEA. A rapid growing climber, with large bell-shaped flowers. When planting place seed edgewise.

COLEUS. Ornamental foliage plants, indispensable for bedding, box and baskets. Ta. Pkt. 10c.

COLLINSIA. Bright colored and excellent for clumps. A very desirable flower. Ha. Pkt. 5c.

**Dahlia**

COMMELINA. A graceful plant for bedding or for hanging baskets. Dainty blue flowers. Ta. Pkt. 5c.

COSMEDIUM. Golden-yellow with circle of orange, a pretty combination. Blooms all summer. Ha. Pkt. 5c.

COREOPSIS. Bright yellow flowers, desirable for cutting. Perfectly hardy and will thrive any place. Hp. Pkt. 5c.

COSMOS. Dainty and easily grown flowers. Ha.

Dawn. An exquisite early flowering strain. Pkt. 5c.

Double Early. A fine early variety with beautiful double blossoms. Pkt. 10c

CYCLAMEN. A favorite for the greenhouse or parlor, blossoming profusely throughout the winter and spring. Tp. Pkt. 10c.

CYNOGLOSSUM. A lovely plant with flowers of a true forget-me-not blue. Very desirable for growing out of doors or in pots in the house. Useful and pretty for use in bouquets. Ha. Pkt. 5c.

CYPRESS VINE. A beautiful climber with lace-like leaves and scarlet flowers. Ta. Pkt. 5c.

DAHLIA. An old favorite that is always pleasing. Tp

Double Mixed. The finest varieties in mixture. Pkt. 5c.

DAISY. Burbank's Shasta. A superb variety, producing flowers with petals of the purest glistening whiteness. Hp. Pkt. 5c.

DATURA. Stately ornamental plants excellent for specimens. Large double trumpet-shaped flowers of various colors. Ha. Pkt. 5c.

DELPHINIUM. This produces wonderful spikes of flowers of various colors. Unsurpassed for cut flowers. Hp.

Belladonna. Flowers an exquisite shade of turquoise blue, a very beautiful light blue. Pkt. 10c.

Bellamosa. Rich deep blue flowers in dense spikes. A remarkably fine variety. Pkt. 10c.

Cardinale. A graceful variety with long spikes of scarlet flowers. Pkt. 10c.

DIANTHUS. Few flowers can equal these in beauty and profusion of bloom. Hb.

Chinensis. These give a great variation of colors; large and double. Pkt. 5c.

Heddewigi. Large double flowers of exquisite colors. Pkt. 5c.

DICTAMNUS FRAXINELLA. A bushy plant with lemon scented foliage and curiously shaped pink flowers, excellent for cutting. Hp. Pkt. 10c.

DIDISCUS. A constant bloomer with long stemmed lavender flowers of a rich lacy appearance. Ha. Pkt. 5c.,

DIGITALIS (Fox Glove). Ornamental plants of stately growth and beautiful flowers. Hp.

Gloxiniaflora. Large gloxinia-like flowers of various colors, with beautiful markings and spots. Pkt. 5c.

DIMORPHOTHECA. Beautiful flowers varying in color from white to red, with variations in yellow. Ha. Pkt. 5c.

DOLICHOS. A desirable climber with dense foliage and large spikes of purple and white flowers, followed by beautiful seed pods. Ha. Pkt. 5c.

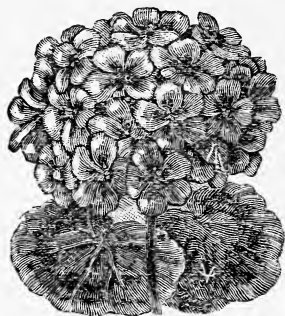

ECHINOCYSTIS. This is the beautiful wild cucumber vine, has bright green foliage and sprays of white flowers. It will grow faster than any other vine we know of. Ha. Pkt. 5c.

ESCHOLTZIA. The lovely California Poppy bearing an abundance of attractive flowers in various shades. Ha.

Single Mixed. A fine mixture of all colors. Pkt. 5c.

Double Mixed. The double varieties are very beautiful. Pkt. 10c.

EUPATORIUM. Snow-white flowers; fine for cutting and bouquets. Hp. Pkt. 5c.

Geranium

EUPHORBIA. Highly ornamental foliage. Ha.

Hetrophylla. Resembles the beautiful poinsettia plant; about midsummer the top leaves of each plant turn scarlet. Pkt. 5c.

Variegata. Very showy with its foliage edged white and green. Pkt. 5c.

FOUR O'CLOCK. One of the most brilliant plants that can be grown. The flowers, which are produced in clusters, present a gorgeous sight during the afternoon. Ha. Pkt. 5c.

GAILLARDIA. Attractive flowers for bedding, blooming throughout the summer and very desirable for cut flowers.

Lorenziana. A charming double variety, excellent for bouquets. Ha. Pkt. 5c.

Grandiflora. Very brilliant shades of orange, crimson, scarlet and vermilion and very often a combination of all these colors in one flower. A very desirable cut flower. Hp. Pkt. 5c.

GAURA. A graceful plant bearing numerous spikes of rosy white flowers from July until frost. Ha. Pkt. 5c.

GERANIUM. These popular plants are easily grown from seed, beautiful colors and attractive flowers. Tp. Pkt. 5c.

GENTIAN. Large bell-shaped deep blue flowers; a beautiful border plant. Ha. Pkt. 5c.

GEUM. Beautiful plants with large showy flowers; an excellent flower for bouquets. Hp. Pkt. 5c.

GILIA. Graceful feathery foliage and large globular heads of rich lavender blue

flowers. Fine for bouquets fresh and retains its lovely color when dried. Ha. Pkt. 5c.

GLOXINIA. Lovely house plants that produce numerous rich colored flowers many of which are magnificently spotted mottled and blended. Tp. Pkt. 10c.

GODETIA. A profuse bloomer that attracts much attention wherever grown. The colors are rich and satiny. Ha. Pkt. 5c.

GOMPHRENA. A showy everlasting with clover-like heads. Fine for winter bouquets. Ha. Pkt. 5c.

GREVILLEA ROBUSTA. A graceful plant with fern-like foliage; excellent for table decoration. Tp. Pkt. 5c.

GYPSOPHILA (Baby's Breath). Elegant plant with misty panicles of bloom, largely used for mixing with other cut flowers.

Elegans. Delicate and lovely colors. Ha. Pkt. 5c.

Paniculata fl. pl. An interesting double variety unsurpassed for bouquet work. Hp. Pkt. 10c.

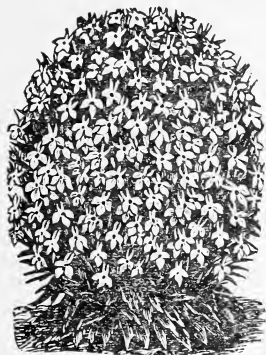

HELICHRYSUM. Large double flowers of brilliant colors, which keep perfectly when dried. The finest everlasting. Ha. Pkt. 5c.

HELIOPSIS. A desirable summer bloomer with deep golden-yellow flowers, valuable for cutting. Hp. Pkt. 5c.

HELIOTROPE. A favorite on account of its fragrant flowers. Valuable for pots or bedding. Tp. Pkt. 5c.

Heliotrope

Lobelia

HESPERIS. Deliciously sweet scented flowers for garden or cutting. About two feet high, and blooms from June to August. Hp. Pkt. 5c.

HEUCHERA. This is a fine hardy plant. The flowers are of a rich bright coral-red color. Excellent for cutting. Hp. Pkt. 10c.

HIBISCUS. (Marshmallow or Rose-mallow). Thrifty plants with handsome foliage, bearing large, bright flowers throughout the summer. Hp.

Crimson Eye. Creamy white flowers, large crimson center. Pkt. 5c.

Golden Bowl. Deep cream with maroon center. Pkt. 5c.

Rex Begonias

5 Beautiful Rex Begonias, all different,
by mail, postpaid, \$1.00

GORGEOUS GLADIOLI

Nothing can surpass this beautiful flower for gorgeous display of color and adaptability for bold effects in decorations and bouquets. No flower will give as much satisfaction for cutting, as the flowers continue to develop on the spike until they have all bloomed. Bulbs may be planted successively from the middle of April till the first of June, thus insuring a succession of bloom through the season. Set bulbs about 3 inches deep, 3 inches apart in the row, and the rows 12 or more inches apart. They thrive in any good soil.

All varieties of our Gladioli are sold at the uniform price of 5c each; 6 of one variety, 25c; 10 of one variety, 35c; \$3.00 per 100, by mail, postpaid. The bulbs we send out are one inch or more in diameter.

A. E. KUNDERD. Very large salmon pink with dark blotch. Heavily ruffled.

ALICE TIPLADY. A deep orange-saffron shading to buff in the throat.

ALTON. Heavy ruffled lustrous orange salmon, flame red lily. A very beautiful variety.

Colossal—The Giant Zinnia

Coreopsis—Lanceolata Grandiflora

Zinnia

Colossal.

The flowers are of enormous size, thickly set with velvety petals. The plants are healthy, vigorous, branching freely, and make excellent material for groups or cutting. Pkt. 10c.

Coreopsis

Lanceolata Grandiflora

A very desirable and easily grown hardy perennial with large orange-yellow flowers on long graceful stems. Nothing can excel this as a cut flower in its color. It is a free and continuous bloomer. Pkt. 10c.

Salpiglossis Gloxiniflora

Salpiglossis

Gloxinaflora Mixed

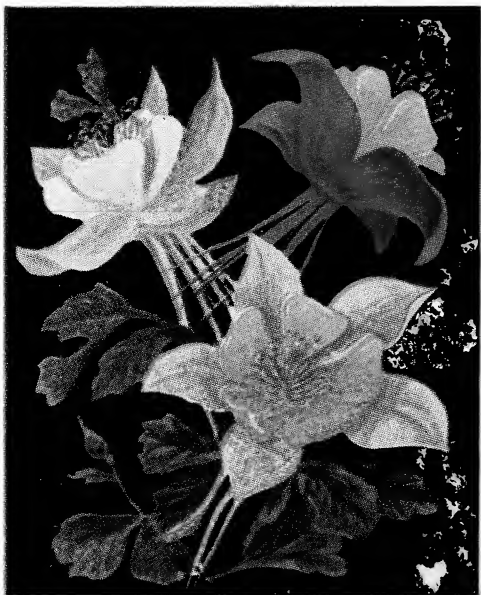

A special selection of the Painted Tube Tongue made by a French hybridizer. Flowers large and fancifully veined in contrasting colors.

This is the largest flowered and the most magnificent strain we have ever seen. Pkt. 10c.

Aquilegia

Mrs. Scott Elliott's Strain of Long-Spurred Hybrids.

This is by far the best strain ever offered, and has received awards wherever exhibited. The blooms are of large size and the spurs very long. The colors range through shades of lavenders, mauves, blues, purples, whites, creams, yellows, pinks, reds, etc. A harmonious blending of colors. Pkt. 10c.

Aquilegia, Mrs. Scott's Strain of Long-Spurred Hybrids

German Iris

Every garden should have an assortment of varieties of these beautiful flowers. They are easily grown and require no special care.

Ambassadeur. The standards are smoky bronze and the falls a dark velvety maroon. It is a strong grower with large flowers on strong, tall stalks. An attractive new variety. Each, 50c; 3 for \$1.00.

Bridesmaid. White shaded silvery lilac; slightly frilled.

Celeste. Pale azure blue; very large flowers.

Count de St. Clair. Deep violet margined white. Very pretty.

Eugene Sue. Creamy white with purple spots and lines. Very pretty.

Florentina Alba. Creamy white faintly flushed lavender; very fragrant.

Gypsy Queen. Dull creamy yellow, shaded bronze.

La Tendresse. Lavender and light blue, veined with violet.

Madame Chereau. White, frilled with a border of blue.

Pallida Dalmatica. A very large flower with varying shades of lavender.

Plumeri. Coppery-rose and velvety-claret; strong and attractive.

Queen of May. Soft lilac or lavender; the nearest pink in iris.

James Boyd. Dark violet edged lighter. Very attractive.

Prices, unless otherwise noted, 15c each; 2 for 25c. Unnamed varieties, \$1.00 per dozen.

SIBERIAN IRIS

Tall and slender growing, of very artistic shape. Bloom in June.

Dorothea K. Williamson. Dark madder violet. A very conspicuous and artistic variety. Each, 20c; 2 for 35c.

George Wallace. Blue and white, very fine. Each 20c; 2 for 35c.

Snow Queen. A beautiful pure white. Each 15c; 2 for 25c.

Superba. A lovely dark blue. Each 15c; 2 for 25c.

Perennial Phlox

This is one of the most useful flowers for summer decorations, the colors varying from pure white to deep crimson. They are not at all particular as to soil, and are exceedingly hardy. To obtain good results it is wise to manure the soil well and give them a fairly open situation, and an occasional soaking of water during very dry weather. Once planted, they require no further attention for several years, but it is advisable to renew them about every fifth year.

Athis. A charming salmon pink.
Daybreak. A beautiful shade of pink.

Eclairer. Pretty carmine shade with light eye.

Mrs. Jenkins. One of the best white varieties.

R. P. Struthers. Carmine with claret eye; a favorite.

Sir Edward Landseer. Bright crimson. A large and beautiful flower.

Price, named Phlox. Each 30c; 4 for \$1.00. All postpaid.
